Subject: Follow-up to yesterday's call with Chesapeake
Date: 06/19/2012 01:23 PM

Hi Ramona and Jeanne,

Yesterday Bob S. told Paul H. that his "inclination" was for us to proceed with the EPA funded site characterization of the prospective case study site prior to resolution of the liability issue, but that he "had to check" on that before making a final decision. (b) (5)

We have scheduled a call with E&E tomorrow afternoon to give them some direction on how to go, (b) (5)

(b) (5)
Stephanie's characterization that we never raised this issue before neglected to mention that we are reacting to a new issue that they raised.

Mike
